READY IN TWO MONTHS.

[ASSOCIATED PRESS DAY REPORT.]

TOLEDO, Oct. 20.—Dr. F. A. Cook said today that he would be ready to submit his proofs of the discovery of the North Pole to the University of Copenhagen within two months, or possibly within a month. He will begin work upon his documents on his return to New York immediately after the close of his lecture tour at Minneapolis next Monday.

"These documents will consist of astronomical and geographical data, my observations and records." he said.

"It was the original plan to submit these proofs first to the University of Copenhagen, and there has never been any reason for changing it.

"There is no reason why the National Geographic Society should be given precedence over any other societies after the University of Copenhagen has completed its investigation. My instruments cannot be brought from Etah until next summer."

COPENHAGEN DECLINES.

COPENHAGEN DECLINES.

[ARSOCIATED FRESS DAY REPORT.]

COPENHAGEN, Oct. 20.—The University of Copenhagen has declined to forego fts privilege to the first examination of the North Pole records of Dr. Cook.

The authorities of the university cabled today to the National Geographic Society at Washington, as follows:

"Sorry, university not able to comply with your request."

Dr. Cook had promised to submit his records first to the faculty of the University of Copenhagen, but on October 15, the university was requested to waive its flaim of priority in favor of the National Geographic Society, which sought an early determination of the controversy which has arisen as the result of Commander Peary's charge that Dr. Cook did not discover the pole.

Hook Worm Gets in Work on Georgia University Football Team.

(BY DIRECT WIRE TO THE TIMES.) ATHENS (Ga.) Oct. 20.-[Exclusive Dispatch.] The prevalence of the hook worm among the students of the University of Georgia is causing the facbeen determined upon to eradicate the parasite.

Dr. J. C. Bloomfield, president of the city Board of Health, has been examining the students at the request of the faculty, and he reports that at are suffering from hook worm.

Many of those examined, Dr. Bloomfield states, are members of wealthy families, which, in his opinion, discredits the belief that the disease is only prevalent among the poorer classes.

Some of those afflicted with the hook worm are members of the university football team, hook worm is undoubtedly responsible for the poor showing the team is making, as one effect of the parasite is extreme

[ASSOCIATED PERSE NIGHT REPORT.]

WASHINGTON. Oct. 20.—Reports of
curious phenomena in a crater lake on
Bogosiof Island. Behring Sea, were confirmed today in a report received by
the treasury department from Capt.

V. E. Jacobs, commanding the Behring
Sea revenue cutter fleet. Capt. Jacobs
reports the existence of boiling steam
jets in the lake, while at only one
place around the island could soundings be found. The observations tend
to show that the lake is the crater of
the submerged volcano.

Tommy Tbarrando appeared before the Registration Committee of the A. A. U. last night to protest against his six months' suspension from the amateur standing. The commissioners, after a lengthy discussion, refused to reschid the suspension, and Tommy must remain an "outsider" until December 8. St. Vincent's football team must play this season without the services of Ybarrando.

Earl Newmire's case was also brought up by the committee, the U. S.C. track athlete getting two years' suspension for participating in a professional Marathon at Flesta Park last May. Commissioners Braden and Hamilton were strong in their belief for the next two years, he may be reinstated.

Not a "Cure-all"

Separate Remedies, Each Devised for the Treatment of a Particular Aliment.

There is no "cure-all" among the Rexall Remedies. There are different and separate medicines, each one devised for a certain human aliment or a class of aliments closely aliled. For instance, Rexall Dyapopsis Tablets are recommended for the positive relief of stomach irritation, indigestion, flatulency and dyspepsia. They are rich in Bismuth-Subnitrate, Pepsin, and Carminatives. They are prepared by special processes which perfect and enhance the great remedial value of these well-known medicinal agents. This remedy sells for 25c, 50c and 31 per package, Every one suffering from stomach disorder should try Rexall Dyspepsis Tablets, inasmuch as they cost nothing if they do not satisfy.

Remember, The Owl Drug Co., inc., Los Angeles, San Francisco, Oakland, Cal.; and Seattle, Wash., are the only stores in Los Angeles where these remedies may be obtained, and every one in need of medicine is urged to investigate and take advantage of the frank and generous manner in which they are sold.

DELTA BUILDING RENTS.

The Delta Investment Company yesterday brought suit against the Anderson-Chanslor Co., in the United States District Court for \$3000 rent and the recovery of the premises in the Delta building. The papers in the case set forth that the Anderson-Chanslor Grocery Company secured a lease of the building, and failed to collect all the rentals. The complainants ask that the building be turned over to their control and the grocery company ordered to pay the \$3000 now alleged to be due.

GIN FOR THE KIDNEYS

Gin Long Recognized by the MedicalProfession as a Remedy for Kidneys and Bladder.

For a long time the medical profession has prescribed gin in some form,
or other for kidney and bladder complaints. It is most effective when
used in the following prescription:
Six ounces good pure gin, one-half
cunce fluid extract buchu, one-half
cunce Murax compound. These ingredients can be purchased seperately
and mixed at home or any good druggist can furnish the entire prescription. Take in doses of one to two
teaspoonfuls three times a day after
meals.

meals.

Prompt attention should be given the first symptoms of kidney or bladder trouble, such as pain in the back, rheumatic pains in the joints, soreness in region of the groin or hip, frequent and scanty urination, dizziness, puffiness under the eyes, etc. Chronic rheumatism, Bright's disease and disbetted develop quickly from the lesser forms of kidney trouble.

[ABSOCIATED PRESS NIGHT REPORT.] KANSAS CITY, Oct. 20.—Three persons were murdered by an unidentified man near Kansas City, Kan., today. Alonso Van Royer, his wife, and a sister-in-law, Miss Rose McMahon, were the victims. The women were found dead in a kitchen of their home, where they had been working. The police suspected the husband of the crime, and began a search for him. Late tonight his body was found 200 yards from the house, covered with heaves. He had been shot through the head. Mrs. Van Royer was shot three times and her sister six times.

Five hundred dollars in cash and a diamond ring, that had been kept in a trunk in the Van Royer residence, are missing.

Van Royer is said to have been seen with a trunk in the Van Royer that he had money at home and accompanying him to his residence, committed the murders.

Sheriff Becker of Wyandotte county is heading a posse in search of the murderer.

the boss of the Ghetto, and Dr. Jones, who swings the cote of the Jones family.

It appears that, the rift was due to the famous banquet given by dzzy Margolis the first of this month.

Heretofore, Izzy has always solidined his hold on the push-cart vote by giving a beer fest, somewhere on North Main street, during the closing days of the campaign.

A barrel of suda was always placed in the middle of the hall and about 100 meek, sorrowful-looking little Russian peddlers sat in a wistful circle around the beer. Izzy always tactfully held up the beer until after the speeking, so the audience stayed to the end and, you may be sure, cheered with proper enthusiasm—on signal.

At the proper point in the proceedings, Izzy's brother Joe was introduced, almost hidden under a big from-gold badge, and lambasted the silk-stocking gents. The push peddlers didn't understand a word he was talking about; but they understood what was in the beer barrel and let out a dismal yowl of applause every time Joe stopped for a grand gesture.

But this was when Izzy's ambitions soared no higher than to get Joe a job in the street department better than "gweeping from gutters."

The victim of the robbery had been collecting yesterday. It is supposed that the robbery was committed by persons who were aware of this fact. Officers are working on the case, but the fact, that Wiggins can give no description of his assaliants makes the trailing of the highwaymen a difficult matter.

Tide-Lands Suit Devoid of Sensations.

Matter of incorporation of Wilmington important Point.

Additional documentary evidence and testimony were introduced in the tide lands suits, in Judge Bordwell's court yesterday. The cases will probably be finished this week. Owing to the intricate nature of the evidence and exhibits, the court will take considerable time in going over the transcript. The trial, from day to day, has been devoid of sensations.

rial from day to day, has been devoid of sensations.

County Clerk Keyes was called as a witness yesterday morning to tell what he remembered about the alleged incorporation of the town of Wilmington in 1872. This is an important question, as the State claims that if Wilmington were incorporated legally in 1872, all tide land grants since that date, if within two miles of an incorporated city, are void.

Mr. Keyes said that he went to Wilmington in 1868 and remained there until 1881, when he moved to San Pedro. After the passage of the enabling act by the Legislature, the witness said a meeting was called to make selections of candidates for city offices.

Prof. James—there are several Prof. Jameses, and we don't know which one this is—says there is such a thing as "supernormal knowledge." The professor has doubtless listened to a good many graduation essays in his time.

INCLE JOE'S HOT GROUNDERS. Joe Cannon batted out some hot grounders to the insurgents, the Bryanites and the grouch people generally. Old timer though he is, and long as he has been in the game, we think that Uncle Joe's present batting average is better than it has ever been before.

Uncle Joe says the present tariff bill is the best that we have ever had. In saying this he agrees with President Taft, who has said the same thing several times in speeches during his trip across the continent. But Uncle Joe does not agree with La Follette, Cummins, William J. Bryan and several other statement allocations and several countries.

Bryan, La Follette, Cummins and the others de-clare that the present tariff arrangement is a curse to the country, an outrage upon the people, a bur-den on the poor and a blow at the nation's wel-fare. These gentlemen — Democrats and false-alarm Republicans as they are—want the country Wilsonized again. They want to put into practice alarm Republicans as they are—want the country Wilsonized again. They want to put into practice the theories of college professors and dreamers. No matter how well a thing works, they say it is all wrong if it doesn't agree with the alleged scientific ideas laid down in the works of the learned professors of economics who have been proved to be about as practical in their ideas as children.

In answer to these theorists Uncle Joe points grimly to the smoke of the factory chimneys and the whir of factory wheels, the grime of the busy

the whir of factory wheels, the grime of the busy marts, the procession of happy workingmen wending their way to the mills every morning, carrying full dinner pails in their hands. He points to crowded stores and shops, to farmers riding in automobiles, to towns and cities growing to beat the band, and to banks bursting with the coin of the

realm.

To be sure, the widespread prosperity that is sweeping over the country today is not pleasing to Bryan or to Cummins or those who are like them. These gentlemen degire trouble and hard times in order that their political fortunes may be advanced. Uncle Joe openly asserts that Cummins is in league with Bryan for the campaign of 1912. It is the ambition of the Iowa Senator to disrupt the Middle West of the tariff issue two years hence. If he succeeds he will prove of great assistance to Bryan, who is already in the ring for a fourth race for the Presidency.

who is already in the ring for a fourth the Presidency.

But La Follette, Cummins, Bryan and the whole conspiracy against prosperity are not to be taken too seriously. It is ridiculous to suppose that the country is so blind as to cause an injury to itself. The United States is operating now under the only system that has ever brought prosperity to its doors. Whenever it has departed from this system it has had to suffer. It has had too many bitter lessons to again induce it to wander from the safe path to follow false lights.

THE "UNFAIR" CRY.

The highest court in the land has fully established the illegality of the boycott or the "unfair" list as applied by boycotters to injure employers who have exercised their right to ignore labor unions. In enforcing the law against boycotters and picketers and other agents of the labor-union trust seeking to destroy a business on which they have declared war, Chief of Police Dishman has done what an honest and fearless, chief of police must have done. It is his duty to enforce the law; he must enforce the law or be branded as false to his trust. The hoots and hisses and curses showered upon the Los Angeles Chief by the hirelings and slaves of the labor-union trust will but heighten the respect and esteem of patriotic citizens for him. The pretense of the labor-union trust that it is superior to the law has no leg to stand on; it cannot stand on Stanley Wilson's leg any better than on Sam Gompers's. It was quite sufficiently upset when the United States Court sentenced the labor-union leaders, Gompers and Mitchell, to jail for disregarding its mandates. The necessity of jailing other "unfair" shouters and lawbreakers THE "UNFAIR" CRY.

BROAD POLICY. A The country is to be congratulated that con-servatism is to rule in the conduct of financial af-fairs during the administration of President Taft. There is to be no hasty exercise of governmental power. Secretary MacVeagh of the Treasury Department is authority for the statement that "no hasty action is contemplated." In a recent address he said: "The administration feels that the subject is too complicated and too difficult to admit of headlong treatment."

headlong treatment."

These are happy words. They assure the nation that for the present regime at least, the finances of the United States are to be adjusted with cool judgment, calm thought and proper consideration of the issues involved. It means that so far as the President is able to control or influence the matter of finance before Congress there will be nothing done to upset confidence or shake values. There will be no Socialistic raids.

This is a great country, the greatest on the face of the globe. The question of finance, which forms so large and important a part in the legislation of other nations, is also in evidence here, but nothing is to be gained by hasty and ill-considered action. other nations, is also in evidence here, but nothing is to be gained by hasty and ill-considered action. There may be, and there probably are, some sources of weakness in our monetary laws; but whatever is necessary to be done for the good of the people, will be accomplished without any "headlong treatment," as Secretary MacVeagh so well puts it. The industrial world, now emerging from uncertainty as to the tariff, is in no condition to meet the agitation that would surely follow any wholesale tinkering of our monetary legislation. What we most need now is to allow the forces that have made the United States the wonder of the world, full play, with no unseemly agitation from any source, and least of all upon what is popularly considered the "money" question.

When William Jennings Bryan went down to defeat in 1896 on the silver issue, the people spoke their sentiments on the subject of inflation and other financial heresies. They sustained the Republican position on the financial issue. In three Presidential campaigns since the demise of the free silver idiocy they have affirmed the decision.

There may be some slight changes needed in our financial laws. Conditions are vazying with the flight of time, but we are assured by the head of the Taft financial department that whatever is done, if anything, it will be accomplished in good time and good order, for "the subject is too complicated and too difficult to admit of headlong treatment."

The admission that there are others to consult in the framing of such legislation, and that it must be done with moderation indicates that the Taft administration is willing to hear from the people as to their needs. Mutual concessions will be made, and so far as the administration is concerned, there will be no set policy to foist upon Congress and the people. All interests will be consulted,

and so far as the administration is concerned, there will be no set policy to foist upon Congress and the people. All interests will be consulted, and when the laws are framed they will represent the concrete wisdom not only of the Republican party that will be held responsible for the changes, but that of the business world as well.

President Taft no doubt fully appreciates the tender sensibilities of money; he knows that any undue excitement regarding the legal tender of the country, its supply and flexibility to meet all fair demands, its adaptability to care for the great volume of business is disastrous, and he has announced through his financial minister that there will be nothing done with undue haste and without regard to all of the interesta involved. There is to be an end to "headlong treatment" of the currency that affects so many people so vitally, that affects so many people so vitally,

BAS THE CARPET!

A Students of the modern American drama will do well to make an intricate examination into the sychological affinity between building a play and aving a carpet on the floor.

having a carpet on the floor.

Mr. George Broadhurst, the author of so many big money winners—including that vulgat atrocity, "The Dollar Mark," for less than which Ferrer was shot—has returned to Southern California for the avowed and somewhat desperate purpose of writing a couple or three American dramas. On his arrival in Santa Monica, where he intends spending the winter, 'Mr. Broadhurst rented a house; but, on being conducted over the premises, insisted, with agitation, that the carpet and furniture be removed from the room he will use as a studio.

This sounds so mysterious that we see the vision

This sounds so mysterious that we see the vision of ten thousand amateur playwrights—for who is not secretly an amateur playwright?—feverishly tearing up the floor carpets and excitedly heaving the furniture out of the windows. Who would let

a carpet stand between himself and fame?

In the border days, it was said that Wild Bill never went to sleep until he had spread the floor of his room with newspapers, which would crackle with the approach of an enemy and wake him. Per-haps, on this principle, Mr. Broadhurst removed the carpets from the floor so that no caitiff wretch of rival playwright may steal in to kidnap his ought-children.

But, anyhow, if you are at work on a play the thing to do is to be on the safe side and tear up the carpets. The dramatic committees of women's culture clubs would do well to stop fussing around with Maeterlinck and start at sweeping carp

That is about all, except that obviously the best training for a dramatic critic would be an apprenticeship in a carpet factory.

The ten States having one beet-sugar factory each are Illinois, Iowa, Kansas, Minnesota, Montana, Nebraska, New York, Ohio, Oregon and Washington.

For what is really an infant industry this showing is remarkably good. That there is much room for beet-sugar factories in this country is evidenced by the fact that in 1909 fiscal year we imported 4,189,421,418 pounds of sugar (worth \$96,554,998,) in which was included 98,625,908 pounds there were not \$25,217,008. This was evaluated \$25,008. of beet sugar worth \$2,521,798. This was excl of 465,000 long tons of cane sugar produced in 1908 in Hawaii and 215,000 tons in Porto Rico, practically all of which came to the United States. In addition, Louisiana produced 350,000 tons and Texas 15,000 tons of cane sugar. From the Philippines we imported 83,648 pounds of cane sugar, worth \$1,594,604. The imports quoted are Bureau of Statistics figures. As a fact our total imports

of sugar, both kinds, in 1909 fiscal year, \$96,554, 998, exceeded those of 1908 fiscal year by \$16.-300,000 in value. The more beet sugar we make and the more cane sugar we produce, the more of our money will stay at home—that is, in the our money will stay at home—that is, in the United States, Hawaii, the Philippines and Porto

Rico.
In the twenty years 1888 to 1908 California's beet-sugar production grew from 1910 tons to 99,613 tons, by the following bi-yearly stages

VALUE OF TOURIST ATTRACTIONS.

Maine, through its official appraiser, aunounces to the world that the property embraced
in summer resorts along that great Pine Tree
State is worth \$40,000,000. The State is supported largely by its magnificent woodlands, its seacoast fisheries and its sea and lake summer resorts.
There is undoubtedly a great deal of attraction in
Maine for the tourist, and the person seeking a
place to spend a vacation. There is excellent fishing in its lakes and rivers, and superb hunting in
its dense forests. its dense forests.

The seacoast of the State would only seach a

"height of the season" can only be said to last through about July and August, a period of sixty days in round numbers.

Now, if we take into consideration the extent of the California shore and the fact that the season with us is at its height from January 1 to December 31, we may get an intimation of what the value in the future of our seacoast resorts will come to. Of course, Maine has Boston, New York and a great many other large cities to draw from. A dense population lies within easy access of , the coast of Maine. But we are now looking a little way into the future. Population in the country west of the Rocky Mountains is growing rapidly. Besides, the California seacoasts attract not only from near, but from far. We have all the country Besides, the California seacoasts attract not only from near, but from far. We have all the country that Maine draws upon and all the country that Maine does not draw upon. In fact, the back country to Southern California is the North American continent. Then, again, we have the bitter frosts of the winter months in the Northwestern States to drive people this way, and the intense heat of the summer months there and along the Gulf States and all westward over the mountains to the Colored River to invest people constraints. Colorado River to impel people coastward from the

Colorado River to impel people coastward from the intense sun.

We may have "boomed" our seacoast property here in California, but when we come to think of the \$0,000,000 people in the United States, 100,000,000 in North America, 365 days in every year, when either from excessive cold or excessive heat a million or more of these people are struggling to get away from weather conditions of one kind or another, and that California is the only place of refuge offered to them and Southern California the only all-year-round perfect climate, we can see that although we may be a little ahead of the clock, the time is coming when conditions will fulfill the expectations of the most ardent ones among us. among us.

The law states that liquor may be sold for medicinal purposes, and no other restrictions were placed upon the sale. The result has been that undoubted quantity of intoxicants have been sold, although strictly within the exact interpretation of the law. Chagrined at this state of affairs, the protest followed, headed by the former saloon keepers.

The protest was ably seconded by the members of the Anti-Saloon League, who still have an organization here, with the result that the Council practically agreed to pass an ordinance which would be proposed to them by the temperance element.

offices of the Tulare County Citrus. Fruit, Exchange, in this city, have changed the orange marketing plans of the associations in this county and it may be some weeks before oranges are generally shipped from this section. The Independents are getting out a few cars of extra early fruit, from the high foothill country. It was originally intended that the association pack here would begin about the 27th of this month. However, letters from the southern exchanges state that there are about 350 cars of Valencias yet to go from that section. Advices have also been received from the newly organized State exchange in Florida, that shipping will not start from that State until the fruit is fully matured and there will be no attempt made to force the early market. Inasmuch as there will be no competition from the latter point, shipping will be delayed from here also, until the Valencia market of the Southern California section is fully cleared and the fruit here has assumed full color. This will bring the opening of the season well into November, or until time that the first shipments may catch the market for Thanksetving.

MYSTERIOUSLY DISAPPEARS.

Pelice of Two Great Cities Looking for Missing Social Revolutionist.

[Associated Press Day Report.]
ST. FETERSBURG, Oct. 20.—The police have received a dispatch from Paris informing them of the disappearance from that city of one of the principal agents of the Central Committee of social revolutionists. The police here believe this disappearance may have some connection with two mystericus murders committed recently in this city. In each case the body of a man was found decapitated and otherman was found decapitated and other-wise mutilated beyond recognition. The theory of the police is that the victims were revolutionists whose good faith had been suspected by their associates.

HOWHE CURED "Buy Your Plane from the Manufacturer" AN OLD SORE

I want to recommend S. S. S. to all who are in need of a blood purifier, and especially as a remedy for sores and obstinate ulcers. In 1877 my blood was very impure and I accidentally ent my leg on the sharp edge of a barrel. This, I suppose, made an opening for the discharge of the impurities in the circulation, and a great sore formed. For years no one knows what I suffered with the place, I tried, it seemed to me nearly everything I had ever heard of, but got no relief. The Doctors said I would have to have the leg amputated or else go through said I would have to have the leg amputated or else go through life with an angry, discharging sore that would injure my gen-eral health. At last I commenced to take S. S. S., and it was but a short time until I saw the place was improving. Greatly-encouraged I continued the use of S. S. S. until it removed all the poison from my blood and made a complete cure of the sore. This was five years ago and my leg has remained healed and perfectly sound ever since.
108 Wyckoff St., Brooklyn, N. Y.

What S. S. S. did for Mr. Ellis it can do for everyone who is

What S. S. did for Mr. Ellis it can do for everyone who is afflicted with an old sore or ulcer. He is just-one of the thousands who have cured themselves of these offensive places through the simple process of purifying the blood, and removing the cause of an old sore with this great blood remedy.

No matter on what part of the body a chronic sore may be located, it is kept open by bad blood. The flesh tissues at the place have been broken down and the nerves irritated because the blood constantly discharges germs and impure matters at that spot. Thus a diseased and infected condition is maintained and all efforts of nature to heal the place. Fall because pure blood is the most necessary thing in the healing of any sore, especially those of a chronic nature.

The impurities in the blood which produce chronic sores, come from different causes. A long spell of debilitating sickness which breeds disease germs in the system, the retention of the eliminative members, or even inherited bad blood will produce the infected condition of the circulation that keeps sores and ulcers open. But it does not matter what the cause may be there can be no cure until the blood is purified.

One of the strongest svidences of the deep-seated nature of these places is the fact that local, treatment, such as salves, washes, plasters, etc., never have any permanent effect. Such freatment only aids in cleansing the outward impurities of the ulcer while the blood continues in its impure state. Nor will removing the place and surrounding flesh by surgical operation produce a cure. The blood cannot be cut away, the old cause is still there, and in every instance the sore very impurity and taint from the circulation, and completely does away with the cause. When S. S. S. has cleaned the blood he sore begins at the bottom; soon the pain and inflammation are gone, the discharge ceases, and the place fills in with firm, healthy flesh, S. S. s. is purely vegetable, made entirely from roots, herbs and barks of specific blood-purifying properties

fight.

Ferhaps, as asserted by officials in Seattle, no deal has been closed for the stansfer of the St. Croix to another line. Something is brewing in San Francisco, say local steamship men, that will have an important bearing upon the water war.

There is an ominous lull in coastwise matters that means something. Everything is as quiet as it was a few days prior to the slashing cut of the Pacific Coast company, when it cut the original rate of its rival in two. Important developments are expected in the next few hours.

The main offices of the P. C. are at San Francisco; the big suns of the Indefendent and Alaska-Pacific Steamship companies are there, and have been for several days. C. H. Hamilton, one of the prime movers in the fight, is there, and T. A. Graham, assistant freight and passenger traffic manager of the Southern Pacific, went north Monday in response to a hurry call. That the feverish activity, followed by a deathlike quietude, portends something appears certain. That it probably means a cessation of the war and a restoration of former rates is not improbable.

Whether this will be by compromise, which is not considered likely; by sale of the St. Croix to another company, or by the withdrawal of the Schubach & Hamilton boat, is immaterial. It is generally believed that the last days of the warer warfare have been reached.

riot, if the incipient conspiracy had not been nipped in the bud.

At the time extradition proceedings were had in the cases of Magon, Villareal and Rivera. De Lara was residing at the home of the woman he afferwards married. He was known to be an ardent sympathizer of the imprisoned reds, and he was arrested at the instance of the Mexican Consulupon a charge of theft in his own country. Believing that this charge and another which was subsequently made, did not constitute grounds for extradition, Oscar Lawier, who was then United States District Attorney here, dismissed the proceedings. Mr. Lawier, who is now Assistant Attorney-General, is in the city for the purpose of aiding in the prosecution of the Imperial Valley land fraud cases.

LAWLER TO THE POINT,

"At the present time I am in charge of the legal department of the Department of the legal department of the Department of the Interior," said he, "and any one conversant with the work of the different branches of the administration, would know that I have absolutely nothing to do with the case of De Lara. The only way in which I was brought into the case, was when Attorney Holston made certain aspersions about me personally. I called at his office this morning and told him he was a cowardly liar. The attorney did not resent my words."

United States Dist.-Atty. McCormick has had nothing to do with the De Lara matter, other than to advise the police officers to impart information to Inspector Ridgway.

But the friends of the "red" persist in ascribing his arrest to the "machinations" of the Federal prosecutors who secured the removal of Magon, Villareal and Rivera to Arisona, there to be tried for violating the neutrality law. From the standpoint of the rampant anarchists and revolutionists, the United States should remain passive while they hatch their plots against this government and against the friendly Mexican republic.

CITY AFFORDS NO REFUGE FOR HOMELESS CHILD,

Returns to Cooped-up Quarters of Detention Home After Comforts of Home Life—Interested Women De-clare Delay in Selecting Site for New Home Is Heartrending.

Testerday little Helen Powler was sent back to the County Detention Home at Railroad and Main streets. There isn't much of interest in the plain statement, but under the surface is the story of a life tragedy. Somewhere in that district of Los Angeles where, by night, life surges with lights and laughter, music and oaths; where, by day, the human particles of that glittering whirl, hide from black memories, if possible, Helen Fowler's mother follows the wrong way. She probably has no thought of the child she so heartlessly abandoned at the Santa Fé staion a few months ago. The baby, thus left to the tender mercies of the first passing stranger, yesterday for the first pussing stranger, yesterday for the first time since she became a city charge, realized what it means to be without a home and a mother.
